

# CREATING INSPIRATIONAL ENVIRONMENTS

ENTERTAINMENT - AUTOMATION  
LIGHTING - SECURITY

Our dedicated team at Liquid Automation prides itself on been able to deliver the very best that the industry has to offer.

Our point of difference is our ability to provide our customers with a complete in house, automation/entertainment solution with our team of experienced industry System programmers and installers.

With the combined guidance of Bruce and Stephan as directors your new automation/entertainment installation will be a smooth stress less fun experience.

#### LIQUID AUTOMATION FOR YOUR HOME

With passion and flare you've created an elegant home, but have you fully realised the systems that entertain, relax and keep you secure?

A Liquid Automation created Home Automation package brings these systems together, giving you easy, yet complete control of your living environment.

Activate your home security system, set lighting and music for a party atmosphere, watch sport or movies with surround sound and a truly big screen, or secure your home for holidays. All this can be achieved with a few taps on a simple, easy to use touch-screen.

Let Liquid Automation complete your home.

#### COMMERCIAL AUTOMATION

Liquid Automation can provide your business with state of the art communications, video-conferencing and lecture theatres.

We understand every businesses needs are unique, so please contact us to discuss your automation requirements. One of our commercial consultants will visit your premises to discuss your options and create terms of reference.

#### DESIGN PROCESS

The Liquid Automation design process ensures you make the right choices, and we provide you with the best system available.

The process begins with a meeting. In this meeting you tell us what you want and need from your home automation system, what your priorities are, your entertainment, comfort and security requirements. If you haven't lived with a home automation system before, we can talk you through this and help you discover the potential your home holds.

As the installation proceeds, we continually involve you with progress reports and meetings to ensure you get the best system we can give you.

We are market leaders in home and marine automation, and often find that during these meetings our clients are thrilled at the possibilities of our systems.

Only you and your family truly understand your needs, we know this and this is why we involve you in every step of the design process. Your unique home and lifestyle requires a unique approach.
